WORLD TOUR 2025/26

Beyond The Salish

DIRECTORS: Richard Chen, William Chong

Two kayakers take on a once-in-a-lifetime journey along the Pacific Coast of Vancouver Island, paddling into relentless waves, unpredictable weather, and the uncharted depths of their fears. The duo finds themselves in a life-altering struggle against the elements. As their journey unfolds, a near-death experience forces them to confront the raw power of the open ocean, pushing the boundaries of their friendship, endurance and luck.

The Magnus Way

DIRECTOR: Graeme Meiklejohn

Magnus Manson was the most promising up and coming downhill racer in Canada, but then his friends at the races began to notice his absence and slipping results. After an initial Rheumatoid Arthritis diagnosis he is diagnosed with Cancer. After this what his friends at the races notice is that, the treatments don't seem to be slowing his riding down. Follow Magnus as he shines a light on what he does to be able to keep himself happy and healthy on the bike.
